June 18,

It's hard to believe it's been six years since I began researching the strange and wondrous secrets of Gravity Falls, Oregon.
In all my travels, never have I've observed so many curious things! Gravity Falls is indeed a geographical oddity.

Ghosts

In the towns of Gravity Falls, ghosts almost go as far as the supernatural, which is kind of weird. I don't know.

ALWAYS HAVE A REASON OF SOME KIND.

PHOTOGRAPHIC PROOF

For some reason ghosts often appear in groups of two or three.

ECTOPLASM SAMPLE (GRAVITY FALLS TOWN HALL)

Most ghosts possess the power of flight, such as the one above.

Some ghosts, such as Dipper's ghost, can't move at all.

It's not a ghost, it's an alien!

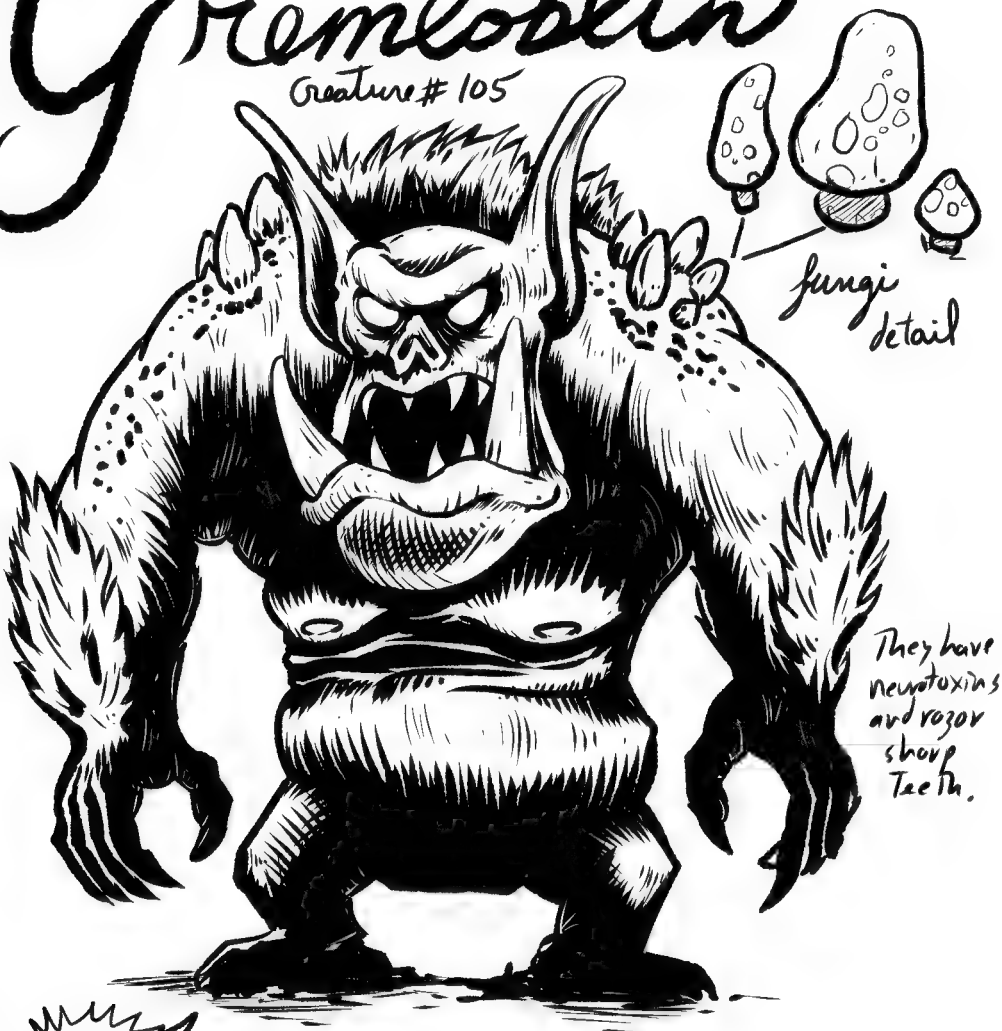
The Gremloblin

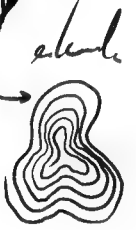
Creature # 105

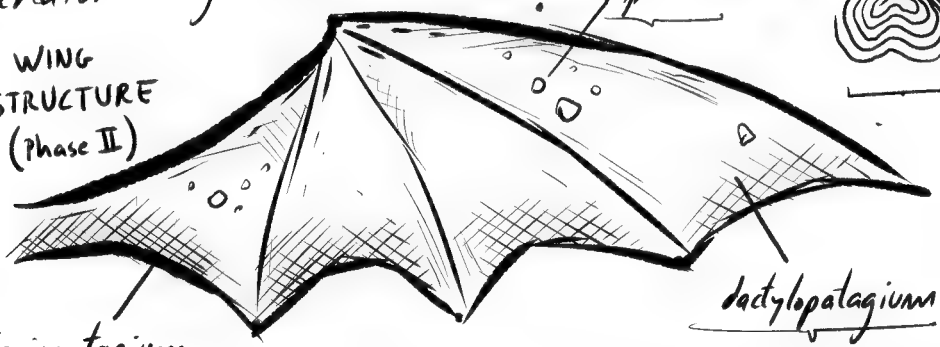


The Gremloblin can be found deep in the dark forest of Gravity Falls.
BEWARE of the GREMLOBLIN!

Gremlablins claws are extremly dangerous due to a neurotoxin dose enduced into humans. Extreme strength and sheer mass gives the gremlablin an extra advantage in the wild. They can show all night moves upon eye contact. My study show the creatures wings

CLAWS EMIT NEUROTOXINS!





Gremlablins are very dangerous creatures so I've made these tips in case someone falls into a dangerous situation with one of these creatures: when fighting a Gremlablin use water.

Butternut squashes that have somehow mutated into a human's face with all kind of emotional expresions, even those that have no idea about the existance of an otside world.

Further study shows that those squashes are constantly wolowing as newer emotions appeared. While this increases my fear of a possible future where plant people have taken over.

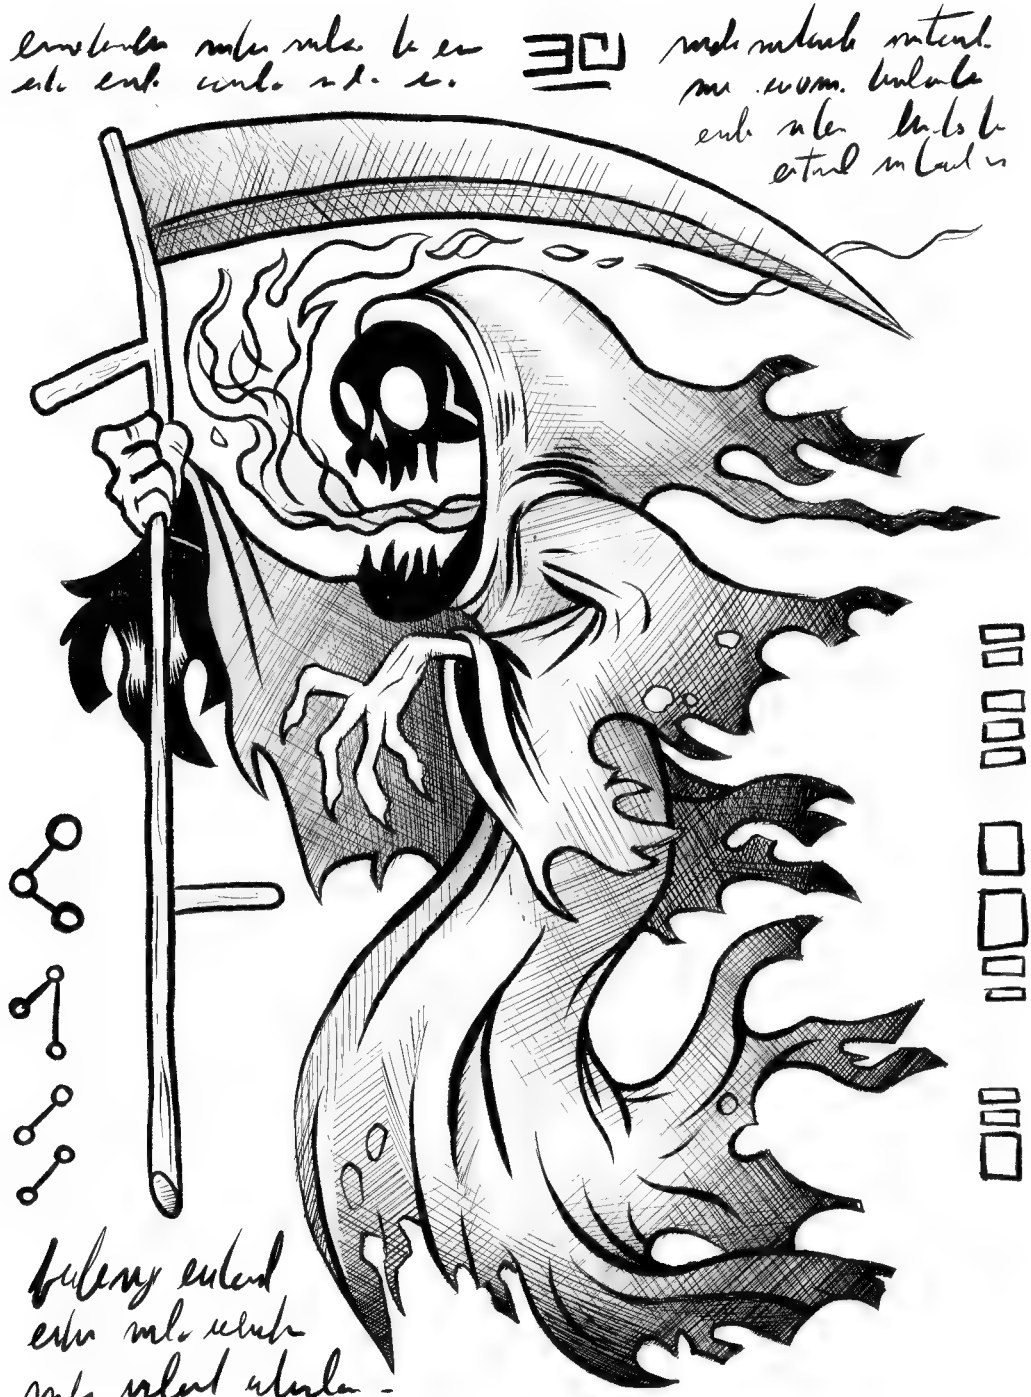
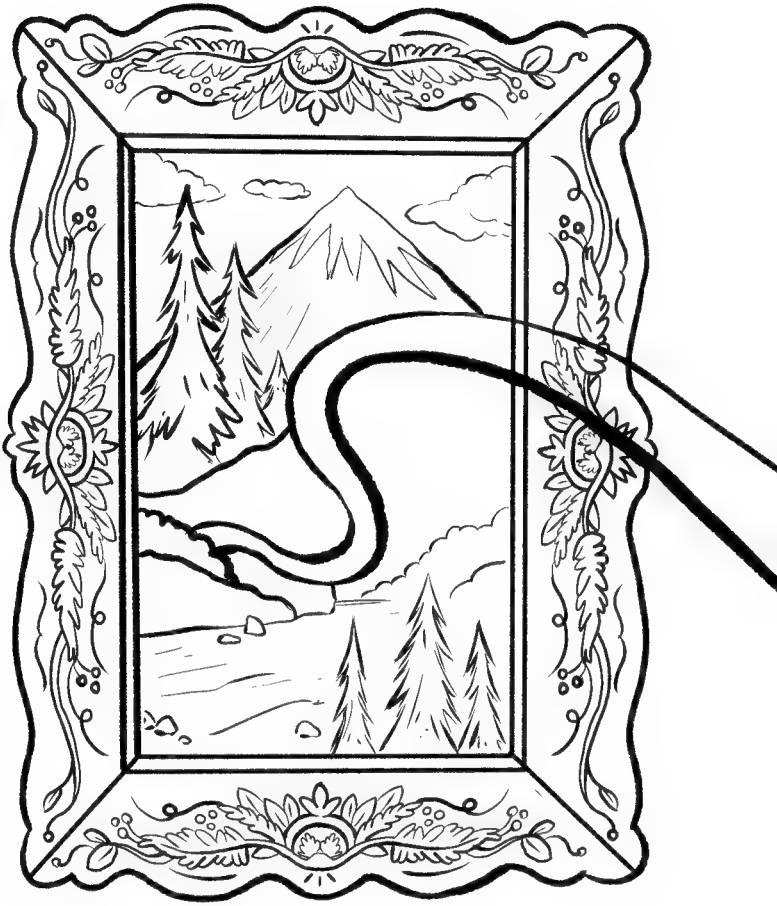
ADVICE:



SHE'S ALWAYS WATCHING!!

There is a haunted painting located ~~for [illegible] about~~ it was a picture of a woman in it that's watching everything.



Haunted paintings are strange paintings that ghosts hide within. Ghosts can freely move on in and out of any painting allowing them to jump out of people easily. Be careful arround paintings in haunted houses.
